

Content

Introduction	7
1 Your most favorite color (tutorial)	9
2 Games	18
2.1 Paper-scissors-rock	18
2.2 The last pebble	23
3 Emerging behavior	29
3.1 The electronic wave	29
3.2 The Ant path	33
4 Roulette wheel brain	42
4.1 Nothing in sight	45
5 Neural network	51
5.1 Hopfield 4 x 4 autonomous learning	55
5.2 Caenorhabditis Elegans	64
6 Evolution	74
6.1 Breeding a robot	76
6.2 Wildebeest simulation	88
6.3 Teacher and his student	92
7 Genetic algorithm	101
7.1 The longest distance	110
7.2 In search of light	117
8 Expert system	126
8.1 Tic Tac Toe, or take fifteen	131
8.2 The programmer	140
9 Cellular automata	147
9.1 The artist	151
9.2 The musician	158

10	Subsumption architecture	167
10.1	The wanderer	172
10.2	The Space Lover	183
10.3	The Hunter	192
11	Miscellaneous	200
11.1	Robot with free will	200
11.2	Ricochet robot	205
11.3	Menace tic tac toe	210
12	Appendix	218
12.1	Programmer (Wisp628 or Wisp648)	218
12.2	RS232 microcontroller - PC connection	220
12.3	Programmer dongle	224
12.4	Power supply	225
12.5	Building the robot	225
12.6	Dual differential drive	232
12.7	JAL overview	234
12.8	Simulation in Visual Basic	247
